Optik™

A simply stunning range that offers innovation within a classic environment. Optik uses contours to interact with light across the surface of each piece. Perfect for banqueting or fine dining, each item carries its own unique, but sympathetic version of the embossment, adding an air of individuality, sophistication and surprise.

The curves and lines move across the piece, creating highlights and shadows, accentuating the form and inviting the user to explore its tactile surface.

Opera bowls feature symmetrical but opposing curves to create a fascinating interplay of surfaces, which draw the eye to the food and excite the palate. Suitable for appetisers, entrées and desserts, Opera bowls offer an innovative, elliptical alternative to food presentation.

natural inspired warmth

Craft™

Craft is inspired by hand-crafted, simple country wares made by generations of potters over hundreds of years. The range embodies the beauty of rich, lustrous glazes applied by hand, and celebrates chance effects and reactions which occur naturally in the kiln.

The gem-like glazes married to simple forms and shapes produce a unique and individual appearance, giving Craft a rustic "joie de vivre".

Craft the original and arguably the best.

Parentheses™

Bringing the chef's presentation to sharp focus is what first inspired the Parentheses collection by Crucial Detail. Just as attention is centred on wording within a parentheses in text, so is emphasis drawn to the food when plated on a Parentheses piece. SonataTM

NEW ADDITIONS

Design by Rene Ozorio, the Sonata collection's embossment is a delicate note which complements the strong direction of the shapes. A welcome departure from the formal "nouvelle" and "fusion" cuisine of the past, Sonata's sophisticated embossment of radiant lines centers the visual focus on the well of each plate and bowl, placing emphasis on the cuisine being served.

Aura Squares™

Divided into three categories: trays, plates and bowls with varying proportions, this collection creates a new tablescape. The pieces lend themselves to composition, layering and contrasting of forms and the smaller foot on the pieces adds a more delicate touch to the conventional straight sided walls. A simple concept with multiple combinations to challenge how we see and eat, this range is perfect for modern Asian and Western cuisine.

Responding to growing demand in the hospitality and retail markets for innovative display solutions Steelite International work with Southern Californian based partner company Elite Global Solutions to provide a stunning collection of outstanding quality melamine pieces.

Our Creations collections of products, available in various materials, from melamine to wood are designed by Steelite designers exclusively for Steelite International. These exclusive items can be identified by the Creations backstamp which also identifies the origin source.

To extend our melamine offering under our Creations brand we've taken inspiration and qualities from our popular ceramic shapes to develop new melamine ranges that are ideal displayware solutions for buffet and counter serve environments. The development of these exciting new ranges further enhances our commitment to offering excellent quality products that can fulfil the gaps that ceramic products cannot.

All our melamine dinnerware products are NSF & SGS approved chip and stain resistant, dishwasher safe and made to handle both hot and cold food. The displayware is used in many of the world's forward-thinking hotels, restaurants, food service operators, supermarkets and caterers to enhance their offer and customer experience.
